

Gardiner Angus Allied Producer

As an Allied Producer, we share the same breeding philosophy as Gardiner Angus Ranch. Our common goal of producing high-accuracy, high-valued seedstock backed by science, technology and best practice management will insure an end product in demand for years to come. This operation, as an Allied Producer, is committed to earning our customers' loyalty through science-based, market-driven programs designed to meet the global needs of consumers around the world.

GARDINER ANGUS RANCH ALLIED PRODUCERS:

- Share the breeding philosophy of mating proven, high accuracy sires to daughters of high accuracy sires;
- Use GAR genetics and GAR breeding strategy as the exclusive nucleus of our breeding programs;
- Offer the same GAR Guarantee;
- Offer the Guaranteed Gardiner Genetics (G³) source and age verification program to our customers and subsidize their participation through a tag rebate;
- Comply with American Angus Association rules regarding the testing of bulls and females for arthrogryposis multiplex (AM) and neuropathic hydrocephalus (NH);
- Assist in marketing customers' calves through the GAR network of order buyers;
- Support and coordinate feedlot relationships for commercial customers retaining ownership;
- Facilitate access to U.S. Premium Beef's marketing grids through delivery rights for commercial customers retaining ownership.

As the beef industry makes scientific progress through the development of molecular breeding values and marker assisted EPDs, as an Allied Producer, we will aggressively use the data to implement new and better programs, offer more services and continue producing superior Angus genetics.
